LOT 62 Reuben Yutzy Gun

SELLING FRIDAY, JULY 25TH

Reuben Yutzy was one of six children born to Peter Yutzy, a German emigrant, and Elizabeth Glass. He was born on Feb. 11, 1819 in Lancaster PA. He came to Ohio in 1839 and settled in Paint Twp., Holmes Co., near Winesburg.

In 1844 Reuben and Susana Weaver from Winesburg were married in Walnut Creek. They had ten children, eight sons and two daughters. Reuben was a farmer, did a little horse trading and was the area's only Amish gunsmith.

The question is, where did Reuben Yutzy learn the gunsmith trade? There is no mention of any Yutzy what so ever in the "Gunsmith of Lancaster Co, PA. 1727-1863". He may have worked some with his cousin George from 1839 when Reuben came to Ohio and until 1845 when George died, but nothing in research tells that he did. With the information we have, the conclusion is that Reuben was a very talented man and a self-taught gunsmith.

The barrels he used for his rifles came from Pittsburg, PA. to a warehouse in Canton, OH. There he and Adam Stilgenbauer (a gunsmith from Winesburg) would go together by horse and wagon to pick them up, traveling one day over and one day back. It is known that Reuben had a rifling machine, so we can assume he did his own rifling.

The butt plates toe plates and trigger guards all seem to be standard. Most of his cheek pieces are pear shaped with two grooves running parallel to each other and horizontal with the stock. Some have a silver inlay above the grooves, usually oval, maybe engravings. The only patchbox that seems to follow a pattern is the full patchbox with its random sawtooth outer edge. The sideplate is usually rectangular and singled at each end, parallel to each other. The fore part of the stock where the pipe is, is usually elongated. The barrels are all signed "R. Yutzy, numbered, and Holmes Co. The engraving if any, is simple but good. On some of Reuben's rifles, the rib between the muzzle and the pipe had some real nice fancy work and of course his signature "R. Yutzy".

LOT 79 Ben Holladay Gun

SELLING FRIDAY, JULY 25TH

Double barrel stage coach
gun with founder of Overland
Stage Line Ben Holladay's
name engraved on the stock!
Only one known to exist!

Ben Holladay is one of the greatest unknown figures in American history. Born in Kentucky, he moved to Weston, Missouri, as a teenager to seek his fame and fortune. In 1952, Holladay moved to California where he was to operate 2,670 miles of stage lines. He became the original transportation tycoon, famed as the "Stagecoach King" for creating the Overland Express stagecoach lines that were ultimately sold to Wells Fargo in 1866 for \$1.5 million which calculates to \$31,169,493.18 in 2025. The Stage Line was just one piece of a transportation portfolio that also included steamships, streetcars, and a railroad. He even owned the Pony Express for part of its brief history.

Ben was the largest individual employer in the US in the late 1800s and kept close counsel with everyone from President Lincoln to Brigham Young. He built an empire that spanned the entire country and made him mark in American History.

BEST SELLER!!!

Here's what the customers are saying about BONE & TISSUE:

"I am impressed with this product. We had a horse founder from coming in from the field, hot and drinking too much water. We had the vet out, after he tried different things, he pronounced the horse to be in critical condition with no chance of getting over this. At this point I put the horse on 12 oz. of Bone & Tissue per day thinking we either cure or kill him. If I hadn't experienced this myself, I wouldn't have believed this. But by day 13 we had the horse working in the field again in sound condition." **E.H., MD**

"I tried Bone & Tissue for a horse with a muscle disorder. Being very weak in the back legs I now have him on this product for 2 months and wouldn't know he ever had an issue." **H.D., IN**

"This is your best product yet. Being very effective loosening joints and shoulder on our horses when working them. Seems like they flex better at the knee and break over at the neck better." **N.Y., PA**

"Don't change anything on this product. IT WORKS! WOW!" **A.H., NY**
